## PORTABLE DEHUMIDIFIER

Eliminates excess moisture wherever you put it

HOKKAIDO presents a portable dehumidifier that creates the right degree of moisture for small rooms, with the ability to remove humidity from the air up to **16 litres per day**.

DH16-A1 is equipped with a **2.1 litres condensate collection tank** and a connection for possible continuous condensate drainage.

It lets you set the desired moisture level, from 30% to 90%, and choose two types of air ventilation speeds (high/low).

If the tank is full, the light signal is activated via an indicator on the control panel with relative auto switch-off.

DH16-A1

- Dehumidifying capacity: 16 L/day (30°C DB - RH 80%)
- Tank capacity: 2.1 litres
- Refrigerant gas: R134A
- Sound pressure: 42 dB(A)
- **Automatic defrost**, signalled via indicator light
- **Air filter**, easily removed for cleaning
- Timer

### Main functions

- **Continuous dehumidifying** function.
- **Comfort** function: automatically sets the degree of moisture according to the detected room temperature.

Portable			DH16-A1
Power		Ph/V/Hz	1/220~240/50
Rated dehumidifying capacity	30°C DB - RH 80%	L/d	16
Control			Electronic
Defrost type			Fan
Defrost			Automatic
Moisture detection and control			Digital hygrosstat
Adjustment range (relative humidity)		%	30 ~ 90
Consumption		W	410
Rated current		A	2.10
Sound pressure level		dB(A)	42
Handled air flow		m <sup>3</sup> /h	135
Supplied tank capacity		L	2.1
Operating range		°C	5 ~ 32
Refrigerant	Type/qty.	Kg	R134A/0.12
Global warming potential	GWP	kg CO <sub>2</sub> eq.	1430
Dimensions	LxDxH	mm	340x220x495
Net weight		Kg	13.3
